## PROFESSIONAL SUMMARY

Cybersecurity and IT professional with hands-on Security Operations Center (SOC) experience monitoring SIEM alerts, investigating potential security incidents, performing log analysis and vulnerability assessments, supporting incident response, and maintaining detailed security documentation. B.S. in Computer Science with a concentration in Cybersecurity, with additional experience in network and systems administration, Tier 1/2 IT support, Windows/Linux environments, and technical troubleshooting. Skilled in Splunk/SPL, TCP/IP, DNS, DHCP, VPN, Python, SQL, Microsoft 365, and security monitoring. Strong analytical, communication, documentation, problem-solving, and escalation skills.

## CYBERSECURITY & TECHNICAL SKILLS

### Security Operations

SOC Operations, SIEM Monitoring, Security Alert Analysis, Incident Investigation, Incident Response, Log Analysis, Vulnerability Assessment, Endpoint Security, IAM, Escalation, Security Documentation

### Networking

TCP/IP, DNS, DHCP, VPN, LAN/WAN, Routers, Switches, Wireless Access Points, Firewalls, Wireshark, Nmap

### Full-Stack Development

Frontend and backend application development, API integration, and end-to-end delivery

### Backend Development

Server-side logic, APIs, Python, Flask, SQL, and application support

### SIEM / Query

Splunk, SPL, Dashboards, Correlation Analysis, Statistical Processing, Search Optimization, Alert Scheduling, Lookup Tables, Sub-searches, SQL

### Systems

Windows 10/11, Windows Server, Active Directory, Ubuntu Linux, Kali Linux

### Frontend Development

Responsive user interfaces, HTML, CSS, JavaScript, and client-side behavior

### Programming / Tools

Python, C++, SQL, Flask, Git/GitHub, Microsoft 365, Word, Excel, Outlook, PowerPoint, Teams, Zoom

## PROFESSIONAL EXPERIENCE

### POS Implementation Analyst

*ConStrata | Jul 2026 – Present*

- Install, configure, validate, and troubleshoot enterprise POS systems and connected hardware in customer environments.

- Provide go-live support, document implementation and troubleshooting activities, and collaborate with customers and project teams.

## **IT Support Technician**

*VSF Germany | Jul 2021 – May 2024*

- Delivered Tier 1/2 technical support for Windows workstations, printers, peripherals, user accounts, and network connectivity.
- Investigated and resolved hardware, software, access, and network issues while documenting technical solutions.
- Supported users and day-to-day IT operations with a focus on timely troubleshooting and clear communication.

## **Junior SOC Analyst**

*Vi-John | Jan 2019 – Jun 2021*

- Monitored SIEM alerts and investigated potential security incidents and suspicious activity in the environment.
- Performed log analysis, vulnerability assessments, endpoint security monitoring, and incident-response support.
- Analyzed security events, documented investigation findings and technical details, and maintained security documentation.
- Supported incident triage and escalation when events required additional investigation or response.

## **Database Administrator**

*Benning Market LLC | Jun 2016 – Nov 2017*

- Administered SQL databases, backups, recovery procedures, user permissions, access controls, performance monitoring, and reporting.
- Documented configurations and operational processes and provided technical support for database-related issues.

## **System Administrator**

*ATC Construction | Jul 2015 – May 2016*

- Administered Windows Server and Active Directory environments, including user accounts, groups, permissions, patches, and system updates.
- Configured and supported DNS, DHCP, TCP/IP, file sharing, network printing, backups, and Windows endpoints.
- Monitored system performance, resolved hardware/software/network issues, and documented configurations and troubleshooting procedures.

## **Network Administrator**

*ATC Construction | Sep 2013 – Jul 2015*

- Installed, configured, and maintained LAN/WAN infrastructure, routers, switches, wireless access points, firewalls, and network-connected systems.
- Administered DNS, DHCP, TCP/IP, IP addressing, and connectivity; monitored network performance and troubleshooted outages and reliability issues.
- Supported network security controls, antivirus protection, user access, system updates, and Tier 1/2 technical support.
- Maintained network documentation, asset inventory, IP address records, and technical procedures.

## EDUCATION & CERTIFICATIONS

**B.S. Computer Science, Concentration in Cybersecurity, Middle Tennessee State University, 2026 |**  
GPA: 3.82/4.00

**A.S. Computer Science, Nashville State Community College, 2024**

**CompTIA Security+ – In Progress**

**Splunk Education – 13 courses completed:** Search Optimization, Dashboards, Correlation Analysis, Visualizations, Statistical Processing, Alert Scheduling, Lookups & Subsearches, and more

**AI Fluency | Certificate**

**Claude 101 | Certificate**

**Honors:** Dean's List, President's List, Gamma Beta Pi Honor Society

**Law Degrees:** LL.M. in Environmental & Water Law, University of Gondar, Ethiopia, 2013 | LL.B. (Bachelor of Laws), Mekelle University, Ethiopia, 2009
